Rural development is more than ever before connected to entrepreneurship. Entrepreneurship is an important driver of economic growth, productivity, innovation, and job creation, and as a key aspect of economic dynamism. Thus, Rural Entrepreneurship Development Cell was initiated with an aim to motivate students to help rural masses and explore untapped rural resources and prospects available in the zone. In addition, it aims to nurture the students to become successful rural entrepreneurs for the balanced regional development.

To accomplish above-mentioned objectives of REDC, 5 wings are established namely Internship and Apprenticeship with Rural Enterprises (Training and Placement Wing); Initiating Rural Entrepreneurship (Entrepreneurship Wing); Networking with Rural Manufacturers (Rural Engagement Wing); Developing Rural Technological Interventions (Technology Wing); Grooming students to be Rural Entrepreneurs (Personality Development Wing).

Under Personality Development Wing, students were trained to interact with rural masses with positive attitude. Therefore, for impressive personality, articulation & impact, virtual personality development lecture was conducted by Asst. Prof. Jael Angel Johnson for REDC volunteers through Google Meet platform on 10<sup>th</sup> November 2022. A total of 81 students participated with great zeal in the lecture. The lecture was aimed at training students to overcome language barriers & effectively persuade the rural population for an entrepreneurial engagement. The lecture was further an effort to motivate student volunteers to empower rural population.
