29<sup>th</sup> April 2024

### Report of NEP Orientation Program for Junior College Students

JVM's degree college NEP committee organized a session was conducted on NEP 2020 for junior college teachers and students of JVM Airoli and NES, Kalwa on 29th April 2024. Asst. Prof. N.K.Patil addressed the students and answered their queries. 96 students and teachers benefitted the program.

The National Education Policy (NEP) 2020 brings a transformative shift in the Indian higher education landscape, introducing the National Academic Credit Bank (NACB) as a cornerstone of the National Credit Framework.

A hallmark feature of NEP is the provision of multiple entry and exit points within higher education programs. This means that students have the flexibility to enter and exit programs at different stages, earning certificates, diplomas, or degrees based on the accumulation of credits. Value education is another important part of the NEP.

Vocational training is also getting a boost. This means students will have more opportunities to learn practical skills that can help them get jobs.

Internships are a key aspect of the National Education Policy (NEP) 2020. They provide students with hands-on experience in real-world settings related to their field of study. During internships, students get to apply the knowledge and skills they've learned in the classroom to actual work situations. The NEP emphasizes the importance of integrating internships into educational programs at all levels, including school, college, and vocational training. All these above points were discussed in the session.

Overall the students accepted and the concepts were understood to a considerable level to the students to further their education.

Asst. Prof. N.K.Patil
